MARCO
MID-ATLANTIC REGIONAL
COUNCIL ON THE OCEAN

MARCO News, Winter 2024

Webinars

The **MARCO Ocean Conservation Work Group** is hosting a webinar with a featured presentation by Dr. Susan Barco, followed by an audience Q&A discussion. During the presentation, Dr. Barco will highlight recommendations from the **Sea Turtle Chapter of the Regional Wildlife Science Entity Science Plan**.

Events

— *The Sixth Annual* —
MID-ATLANTIC OCEAN FORUM

Save the Dates & Register Today!

May 13-14, 2024

Lewes, Delaware

Mark your calendars and register today for the [**Sixth Annual Mid-Atlantic Ocean Forum**](#), to be hosted by the Mid-Atlantic Committee on the Ocean on **May 13 and 14** at **The Virden Retreat Center in Lewes, Delaware**. Following two days of presentations and dialogue, attendees will have the opportunity to extend their experience on May 15 through site visits relevant to Forum Themes. The Forum is the region's premier annual event dedicated to ocean planning, gathering ocean professionals and stakeholders representing federal and state agencies, Tribal entities, marine industries, nonprofit research and advocacy organizations, and the public.

The free event will feature expert presentations and discussions on topics including climate-ocean action, sustainable ocean economies, ocean conservation and healthy ecosystems, marine spatial planning and data-sharing, and much more.

A call for proposals will be issued for presentations at this year's Forum. Students and early career professionals will also be invited to participate in a poster session highlighting their work.

More details on the Forum will be available soon. For questions, email events@midatlanticocean.org. Information on past events can be [found here](#).

TRIBAL RESOURCES FOR MARCO MEETING PARTICIPATION & DATA NEEDS

The Mid-Atlantic Regional Council on the Ocean is committed to improving and increasing engagement with State and Federally recognized Tribes in the Mid-Atlantic Region as well as those with ancestral ties to the Mid-Atlantic.

MARCO is looking to ensure Tribal members are able to attend as well as present at any meeting in which their Tribe has a vested interest. Please email info@midatlanticocean.org with the Subject Line: “Tribal Member Travel Support Request” if you would like to participate in any of MARCO’s upcoming meetings and require travel support. More information on Tribal Resources can be [found here](#).

The Mid-Atlantic Regional Council on the Ocean (MARCO) seeks a part-time Administrative Coordinator. The Administrative Coordinator will support administrative and operational tasks that are critical for advancing MARCO's work plan, including financial tracking, invoice management, and event coordination. The Administration Coordinator will report to the MARCO Executive Director.

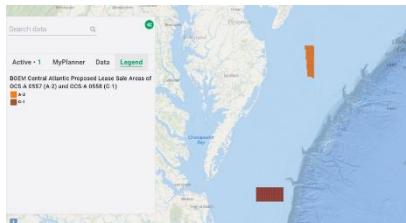

This is a 1-year fully remote, contractual position, with the potential for renewal depending upon funding.

The successful candidate will exhibit strong communication and organizational skills required to support MARCO and enable it to effectively deliver its work plan to the five-member Mid-Atlantic States – New York, New Jersey, Delaware, Maryland, and Virginia.

UPDATES

Proposed Central Atlantic Lease Sale Areas:

BOEM is seeking comment through Feb. 12 on two potential areas for offshore wind development off the Virginia and Maryland/Delaware coasts.

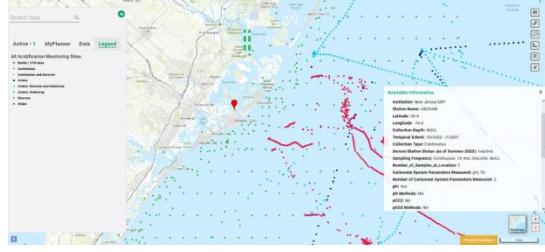

Offshore Wind Ports:

Find the locations of port facilities that are currently in use or are expected to accommodate offshore wind farm development in the Mid-Atlantic.

Virginia Sanctuaries:

Maps showing sanctuaries for blue crabs, oysters and submerged aquatic vegetation in the Chesapeake Bay and along Virginia's shoreline have been added to the Conservation theme.

Acidification Monitoring:

View the places at sea, in coastal waterways, and estuaries where the waters are being monitored for signs of increasing acidity.

Additional Updates:

Dive into the latest updates and exciting new features on the Marco Ocean Data Portal! Explore additional enhancements you may have missed.

Watch: Leonard Delivers COP28 Virtual Talk on Mid-Atlantic Ocean Planning

Mid-Atlantic Committee on the Ocean (MACO) Tribal Lead **Kelsey Leonard** discussed the history and importance of ocean planning in the region during a Nov. 30 [COP28 Virtual Ocean Pavilion](#) panel event. Leonard's presentation (which begins at the 1:16:30 mark) also detailed the Mid-Atlantic Ocean Data Portal's growth as a tool for deconflicting ocean uses, identifying critical habitats for protection, and educating the public on the region's Indigenous nations and cultures.

The panel was one of a series of live events organized by the Global Ocean Forum and Plymouth (U.K.) Marine Laboratory in November and December to focus on the theme “Integrating Ocean and Climate Action.” Speakers provided arguments for increasing coordination among ocean-climate initiatives through integrated and ecosystem-based approaches, and presented illustrative cases that underscored and shared lessons learned from these practices. Leonard's fellow panelists included representatives of the Alfred Wegener Institute, CORDIO East Africa, the Food and Agriculture Organization of the U.N., Nippon Foundation-University of Edinburgh Ocean Voices Programme, OneOcean Flotilla, Plymouth Marine Laboratory, U.N. Framework Convention on Climate Change Secretariat, and Youth and Environment Europe.
